Equipment: mat for corner platform – 1 pc,

Age: 3+.

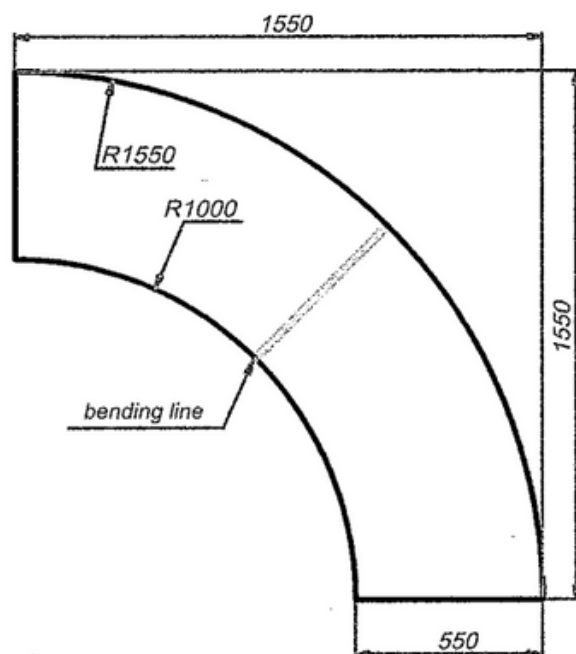

Fig. 1 Schematic image of the product.

3. STORAGE

Store in a dry, covered place at a distance of at least 1 m from heating appliances and direct sunlight.

4. RECOMMENDATIONS

- For daily care, the product should be wiped with a cloth soaked in warm water. In case of significant contamination it is necessary to use a soap solution or specially designed detergents, then the surface should be wiped with a cloth soaked in clean water. Excess moisture is desirable to wet with a dry cloth.
- Before using detergents, it is desirable to check their effect on an inconspicuous part of the product.
- Small persistent stains can be removed with alcohol-based cleaners by gently wiping the contaminated surface. At the end of cleaning, wipe with a damp sponge, then wipe dry to remove residual solution.
- Do not use rough cleaning brushes to remove dirt, there is a risk of scratches on the surface.
- Do not use excessive amount of water and make sure that the coating remains dry after cleaning.
- Steam cleaning is not recommended!
- Do not use boiling/very hot water for cleaning of dirt.
- The use of aggressive and abrasive household chemicals or other means for the care of faux leather products is strictly prohibited.
- Regularly check the seams for wear and damage, make sure that access to the internal filling is impossible.
- Use outdoors is not desirable and is permissible only in dry weather.

5. ATTENTION! DISCLAIMER

- Be sure to unpack the product. Packing can be dangerous for children!
- Please check the equipment for damage that may occur during delivery.
- Do not place the device near central heating radiators or heaters, or in direct sunlight, near air conditioners.
- Warning! The equipment has age restrictions - not intended for children under 3 years.
- Use under adult supervision.
- If the product is damaged, take it immediately to inaccessible place of children.
